The Art of Layering at the Window

The process is simple

1

Select your base layer product
blind, shade or shutters

Base Layer

For light control, privacy and energy efficiency

- Any Hunter Douglas Product
- Solid or Texture
- Neutral or Color

2

Choose the decorative fabric
for the second layer
to customize your window

Design Studio™ Fabrics for Second Layer

Adds drama, depth and style

- Core Line
- Featured Artist Collection
- Options to coordinate or contrast

3

Select either
Side Panels or Drapery

Second Layer Functionality

- Side Panels – the stationary accent that frames the window adding a layer of dimension and beauty.
- Drapery – The functional beauty at the window, fully covers the window providing privacy and light control.

Perfect Pairings | Use the suggestions of our design team and stylists to bring a finished look to your window.

Coordinate Tone-on-Tone

For a monochromatic, harmonious look coordinate the color of undertreatments and overtreatments.

- Tone-on-tone neutral
- Tone-on-tone color
- Tone-on-tone texture

Contrast with Color or Pattern

Make a bold design statement, accent the window with a contrasting color to your undertreatment:

- Bring out an accent color from the room
- Bring out a color from a patterned undertreatment
- Select a color that reflects your personality

- A. Drapery: Berkshire – Homegrown
Alustra® Woven Textures® Roman Shade: Origins – Palm
- B. Drapery: Hamrick – Sandy
Solera®: Layla – December White
- C. Drapery: Cordero – Mystic
Duette®: Elan – Snowberry
- D. Drapery: Gentry – Indigo
Roman Shade: Tree of Life – Gray/Blue
- E. Drapery: Diamond Geo – Gray/Blue
Designer Roller Shade: Aglow – Plum
