Removing the Valance (If Necessary)

Outside Mount

■ Slide a flat blade screwdriver under the valance clip. Push down on the screwdriver to release the valance and pull the valance from the clips.

Inside Mount

■ While holding the dust cover valance, remove each screw.

Cleaning Procedures

Designer Screen Dust Cover Valances are made from anti-static, dust-resistant materials which repel dirt and dust. The following options are available if your shade needs cleaning.

Dusting

■ Regular light dusting with a feather duster is all the cleaning needed in most circumstances.

Vacuuming

■ Use a hand-held vacuum with low suction for more thorough dust removal.

Compressed Air/Hair Dryer (Cool Setting)

■ Use compressed air or a hair-dryer on a cool setting, to blow dust and dirt off of shades.

Spot-Cleaning

■ Prepare a solution of warm water and a mild detergent.
■ Dampen a clean cloth in the solution and wring it out.
■ Dab the spot with the dampened cloth until it is gone. Do not rub the fabric.
■ Allow the shade to dry in the completely lowered position.
